NEGATIVE DECLARATION

PROJECT: GENERAL WILLIAM J. FOX AIRFIELD LAND USE COMPATIBILITY PLAN

1. DESCRIPTION:

The General William J. Fox Airfield Land Use Compatibility Plan provides a set of policies for use by the Los Angeles County Airport Land Use Commission in evaluating the compatibility between future proposals for land use development in the vicinity of General William J. Fox Airfield and the potential long-range aircraft activity at the airport. The compatibility criteria defined by the policies are also intended to be reflected in the general plans and other policy instruments adopted by the entities having jurisdiction over land uses near the airport. The local agencies that have jurisdiction over land uses within the areas covered by this plan include Los Angeles County and the City of Lancaster. These jurisdictions will need to modify their respective general plans, zoning ordinances, and other local land use policies to assure that future land use development will be compatible with aircraft operations. The plan is prepared in accordance with requirements of the California State Aeronautics Act.

2. LOCATION:

The General William J. Fox Airfield Compatibility Plan primarily applies to land use planning and future development within the environs of General William J. Fox Airfield. The plan defines the affected locations as the airport influence area. A map depicting the proposed boundary of the airport's influence area is included in the plan document. The size of the airport influence area is about 2.7 miles by 9 miles around General William J. Fox Airfield.

3. PROPONENT:
